PROFILE

Analytical profile with product and commercial sensitivity, trained in mathematics and Business Analytics. I am interested in systems that improve contact segmentation, qualification and tracking, then reveal what actually works. My professional experience is mainly in data and reporting; my projects apply these skills to prospecting, CRM, content and conversion while keeping data quality and performance connected.

Target positioning: segmentation, scoring, CRM, pipeline tracking, acquisition reporting, performance analysis and outreach automation.

MARKETING ANALYTICS & CRM SKILLS

Data marketing & CRM	Segmentation, scoring, lead qualification, deduplication rules, pipeline statuses and contact-database quality.
Performance	Acquisition KPIs, conversion, campaign monitoring, simple cohorts, A/B-test logic and result interpretation.
Growth & outreach	Targeting, action sequences, qualification, nurturing, response tracking and guarded automation.
Tools	Python, SQL, Excel, Tableau, Power BI, Playwright, CRM logic, reporting and visualisation.

PROFESSIONAL EXPERIENCE

Data Analyst Intern - Reporting & Performance <i>Iterato</i>	May - Jul. 2022
- Analysed supplier and client data, segmented performance and built indicators with Python, SQL and Excel. - Cleaned databases, structured tracking and automated operational reporting.	
Data Science & Strategic Reporting Intern <i>SADA Assurances - Finance & Control Department</i>	Apr. - Aug. 2024
- Analysed portfolios and performance indicators in a financial and insurance environment. - Structured results and produced reporting for steering and control.	
Operations Assistant & Quality Tracking <i>Dental Laboratory</i>	Apr. - Aug. 2023
- Organised monitoring information, quality controls and structured gap reporting. - Contributed to clearer processes and operational data.	
Administrative Agent - Database Management & Tracking <i>Direction Générale des Finances Publiques (DGFIP)</i>	Summers 2016 · 2017 · 2018
- Reliably updated data, verified documents and tracked cases across several departments. - Followed strict confidentiality, quality and traceability rules.	
Tutor - Communication & Transmission <i>Universities & private tutoring</i>	2017 - 2024
Adapted messages, used active listening and built progressive explanations for each learner profile.	

EDUCATION

MSc Business Analytics <i>Swiss Business School</i> Business Analytics, visualisation, segmentation, predictive models and performance interpretation with Python and Tableau.	2025 - 2026 · Ongoing
Master's in Banking, Finance & Actuarial Science <i>University of Montpellier</i> Profiling, risk, portfolio analysis, financial indicators and steering logic.	2023 - 2024
Master's in Applied Mathematics for Engineering - MAPI3 <i>Toulouse III - Paul Sabatier University</i> Statistics, classification, forecasting, optimisation and programming applied to decisions.	2021 - 2023
Bachelor's in Mathematics <i>University of the Antilles</i> Probability, statistics and analytical reasoning.	2017 - 2020

MARKETING ANALYTICS, GROWTH & CRM PROJECTS

Reach - Qualification, Segmentation & CRM Segmentation · Scoring · Pipeline · Outreach · Reporting Contact-structuring system intended to improve targeting, qualification and acquisition follow-up. Marketing angle: segmentation rules, quality and contactability scores, tracking pipeline, action sequences and performance measurement.	GROWTH & CRM
LiliBot - LinkedIn Application Tracking Assistant Playwright · Filtering · Tracking · Browser automation · Logs Workflow assistant designed to structure the discovery, filtering and tracking of LinkedIn application actions. Documented functions: filtering rules, assisted navigation, logs, action tracking and coherent application organisation.	AUTOMATION
YTBX - YouTube Data Processing Python · Playwright · Extraction · Structuring · Reporting Lightweight tool extracting and processing video data to structure metadata and prepare analysis. Documented functions: controlled collection, information cleaning, structured outputs and preparation of targeted monitoring or extraction.	SCRAPING & DATA
Onepager Studio - Structured Page Generator React · TypeScript · Design system · Structured content · Export Tool generating pages from structured inputs through reusable components, visual consistency and fast production. Work presented: content modelling, component definition, journey organisation, layout rules and coherent deliverable generation.	WEB & PRODUCT

APPROACH

Target → track → measure → improve: start with a clean database, make segments and statuses explicit, track each action, analyse conversion and adjust rules rather than multiplying sends without learning.

LANGUAGES & ADDITIONAL INFORMATION

Languages	French: native · English: B2 · Spanish: B1.
Strengths & interests	Analytical curiosity, structure, communication, autonomy · Digital creation, psychology, reading, chess and fitness.
